

Wattman

10 000 Wh – 6 000W

Technical specifications

Continuous power : 6 000 W

Maximum power (0.5s) : 12 000 W

Battery capacity: 10 200 Wh

Output voltage : 230Vac – 50Hz

AC Outputs :

2 Type F – 16A (2 x 3500 W)

1 P17 – 32A (or Maréchal 50A)

AC Inputs :

1 Power Twist NCA3 – 20A

1 Anderson plug 50 A (PV 5000 W)

Recharge time (16A) : < 4h (90%)

Operating time at 500 W : > 21 h

Operating time at 1000 W : > 9 h

Operating time at 2000 W : > 4,5 h

Weight : 85kg

Dimensions : 68 x 53 x 64 cm

Standard : IP22 IK07

Humidity

(does not include mist) : 5 – 95%

Noise level: 20dB(a)

Noise level when charging : 30dB(a)

CE-certified : DIRECTIVE BT (2014/35/UE) et CEM (2014/30/UE)

Operating temperature : 0°C / 40°C

With the battery warning

system : – 10°C / 40°C

Options

Extension of warrantee

Contract maintenance

Solar panels kit (1200Wc) up to 4 kits (4500 W)

Miscellaneous cables

Powerbank cover

InfiniT Solution : transfer automatically the power from one powerbank to another to power your equipment without blackout

Be surprised by the incredible power of Wattman, 10kWh-6kW to supply all your equipment everywhere, without noise or gas emissions. This light, portable and tough solution is very easy to handle. The strongest materials have been chosen to ensure a long-life cycle and easy repairs. With a battery capacity up to 21 hours and a fast-charging system, you can easily manage your power supplies.

Li-Ion Battery

Maintenance-free

-

Noiseless

No gas emission

No smell

-

Smart BMS

High energy density

All-terrain

Powerful
Guaranteed
Movable
Solar recharge
Ce-certified
Fast charge

MADE IN FRANCE
